

- Water Pollution
- Over Population
- Excessive Use
- Urbanization
- Unequal Access
- Commercialization of agriculture

CAUSES OF WATER SCARCITY

WHY WE SHOULD CONSERVE WATER

- To prevent degradation of ecosystem
- To ensure food security
- To safeguard ourselves from health hazards

HOW TO CONSERVE WATER

- Reduce Excessive Water Usage
- Water Treatment
- Reuse of Water
- Recycling of Water
- **Rainwater Harvesting**

INTEGRATED WATER RESOURCES MANAGEMENT

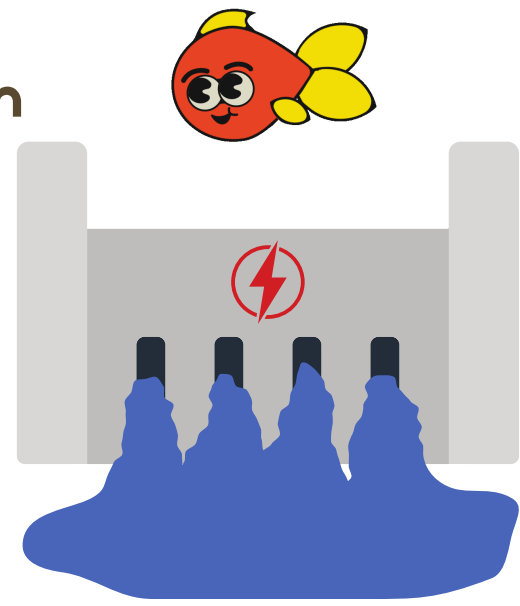

TYPES

- Roof Top (Rajasthan)
- Kuls/Guls of (Western Himalayas)
- Induation Channels (West Bengal)
- Bamboo Drip Irrigation (Meghalaya)

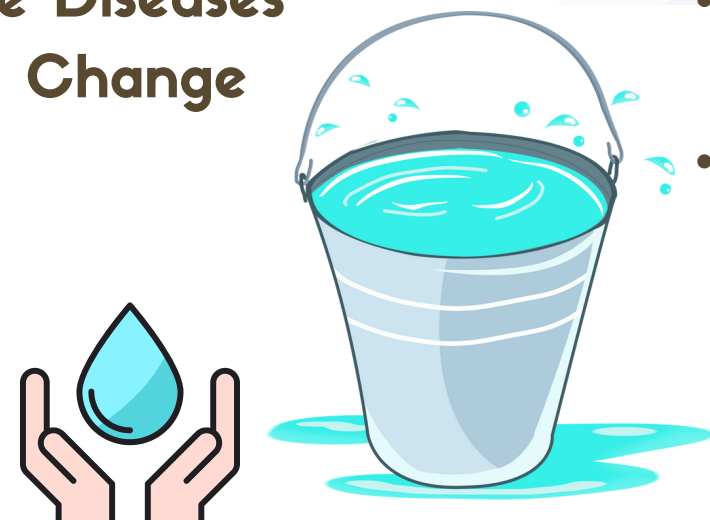

ADVANTAGES

- Flood Control
- Energy Generation
- Fish Breeding
- Inland Navigation
- Recreation

DISADVANTAGES

- Natural Vegetation Submergence
- Earthquake
- Water Borne Diseases
- River Speed Change
- Floods
